HEALTHY HOME INTERVAL ASSESSMENT

As true market leaders in the Healthy Homes space, we are of the firm view that while reaching healthy homes compliance is not to be a one-off task, especially when considering the elements that can easily deteriorate over time (such as Insulation, Drainage, Draught Stopping, Moisture Barriers, and mechanical ventilation/heating). The logical and reasonable approach requires a quick Interval Assessment in-between tenancies to demonstrate ongoing compliance, and to satisfy the new tenancy agreement/S13A statement, in the event of longer-term tenancies, a minimum inspection frequency of 24mths is recommended.

If you are a tenancy.co.nz, Palace & Keyhook client we will seamlessly push your assessment data and reports into your respective tenancy.co.nz, Palace & Keyhook accounts, saving you hours in administrative time.

If you are a Renti client you can seamlessly receive your assessment data and reports into your Tenancy agreements, also saving you hours in administrative time.

Let's get it done right, together!
