ALLCLEAR | HEAT PUMP CLEANING SERVICE

Trusted property compliance and environmental testing solutions for New Zealand property professionals.

Keep your heat pump performing at its best all year round

Our residential heat pump cleaning service does more than keep your heat pump looking clean. It helps maintain efficient performance, supports healthier indoor air quality, protects your warranty and allows potential issues to be identified before they develop into costly repairs.

Our expert technicians carry out a comprehensive cleaning service of both the indoor and outdoor units, removing built up dirt, dust and contaminants while checking that your system is operating efficiently.

If we identify any signs of wear, damage or performance concerns during the service, we'll let you know and recommend the appropriate next steps.

- Comprehensive inspection of the indoor and outdoor units
- Clean and sanitise air filters
- Replace remote battery (if required)
- Deep clean internal components
- Clean and flush the condensate tray and drain line
- Apply a professional anti mould treatment
- Inspect the fan, thermostat and electrical connections
- Test airflow and temperature output
- Pressure wash the outdoor condenser unit
- Clean the condenser coil using a specialised cleaning solution
- Remove dirt, leaves and debris from the outdoor unit
- Inspect visible pipework and insulation
- Perform an operational performance check
- Provide a digital service report with high resolution photos
- Digital service report with annual reminder

$129.95 EXCL GST FIRST HEAT PUMP

ADDITIONAL HEAT PUMPS **$99.95** EXCL GST EACH

IMPROVE PERFORMANCE

Maintain efficient heating and cooling while helping reduce energy consumption.

HEALTHIER INDOOR AIR

Reduce dust, mould and allergens for cleaner, healthier air.

EXTEND HEAT PUMP LIFE

Regular servicing helps reduce wear, protects your warranty entitlements and keeps your heat pump running reliably for longer.
